

Reinstalling NLIS QuickPIC

post 30 Oct 2020 data migration

Contents

Part 1 – Uninstall an existing installation of QuickPIC	. 2
Part 2 – Install QuickPIC	.4
Part 3 – How to access QuickPIC	. 5

Purpose

Following the ISC <u>shift of data infrastructure on 30 Oct 2020</u> all **existing** QuickPIC users will be required to uninstall their existing copy of QuickPIC and re-install.

This process must be completed to allow the application to continue connecting to the NLIS database to update the PIC register information.

QuickPIC will need to be Un-installed ad then Re-installed to continue to work

Part 1 – Uninstall an existing installation of QuickPIC

1. Log on to https://www.nlis.com.au website with your NLIS User ID and Password

2. After you have successfully logged on, click on HELP located on the toolbar

3. Click on the QuickPIC Application DOWNLOAD button to download the QuickPIC installer

4. A new screen pops up at the bottom of the screen. Click on Run

5. A new screen will appear, if you are asked by Windows "Do you want to allow this app from an unknown publisher to make changes to your device?", click **Yes**)

User Account Control X Do you want to allow this app from an unknown publisher to make changes to your device?				
setup.exe Publisher: Unknown File origin: Hard drive on this computer				
Show more details				
Yes	No			

6. On the Welcome screen, select "Remove QuickPIC" and then Finish

	🛃 QuickPIC	_	
	Welcome to the QuickPIC Setup Wizard		G
	Select whether you want to repair or remove QuickPIC.		
	O Repair QuickPIC		
Step 1	Remove QuickPIC		
			Step 2
	Cancel	Back	Finish

7. Once QuickPIC has been uninstalled, click Close
